

CITY OF CARTERSVILLE

The City of Cartersville cares about our people and community. Therefore, the City is requesting your compliance with social distancing.

RECOMMENDATIONS FOR BUSINESSES AND RESTAURANTS

- For restaurants and bars, please close all dining room areas as required by the State of Emergency guidelines. Only carry out/drive through are allowed until further notice.
- Please take all measures to keep customers and employees six (6) to ten (10) feet away from each other.
- If an employee develops a fever or cough, require them to stay at home. Do not allow them to come to work.
- Develop a plan to decrease close customer contact. Please try to limit the number of customers in your store or business at any one time so that customers will be able to keep 10 feet from each other.
- When customers are in line at a business, they should be spaced out at least 6-10 feet from each other.
- The City requests that businesses post signs for social distancing compliance.
