IFC 510 Compliance Acknowledgment

Before a Fire Safety Codes Release or Certificate of Occupancy is issued, compliance with International Fire Code Section 510 is required by means of an Emergency Responder Radio Coverage System (ERRCS) installed, tested, and accepted **OR** through field testing by an FCC licensed radio contractor to verify that an ERRCS is not warranted. A critical element to compliance with this standard is preliminary testing once the building is dried-in. By signing below, I acknowledge that I have read the above statement on IFC 510:
